

# TOOMUCHFUN RUBBERSTAMPS Pull-Up Pockets!

Our two-sided Pull-Up Pocket rubber stamps create pockets filled with coordinating insert cards that can be "pulled up" to reveal fun designs! Use Pull-Up Pockets to hold gift cards, candy, photos, and other small treats. Or use them as greeting cards, gift tags, invitations, announcements, and more!

Our Santa Pull-Up Pocket with the insert card fully enclosed.

"Pull up" the insert card to see the full design! Hide a gift card or treat inside the pocket!

1. Stamp the insert card design onto cardstock. Color as desired, then cut out.
2. Fold a piece of cardstock. Stamp the pocket design along the fold. Color as desired, then cut out.
3. Use a toothpick to apply a very thin line of glue along the inner side edges of the pocket. Do not apply glue to the top edge. (The line of glue should be about as wide as the toothpick. Applying too much glue will prevent the insert card from fitting into the finished pocket.)
4. Place the insert card into the pocket. A gift card, treat, or other small item may be placed into the pocket behind the insert card. Or write a message on the open area of the insert card.
